April 2016 – Present

Mount Arlington, NJ

Owner, Tucker Troop Consulting LLC

- Federal Government Strategic Policy and Execution Expert – ERP and IT Specialist. Independent adviser & consultant specializing in Business Process Re-engineering, Business Transformation, Shared Services and all life cycle aspects of large-scale global Enterprise Resource Planning programming and implementation. Highly skilled in leading and executing complex and multi-disciplinary projects at all organizational levels. Proven leader and manager of global programs, resources, and staff. Over 35 years' experience as an information technology expert.

Jan 2009 – Jan 2016

Picatinny Arsenal, NJ

Director, Army Shared Services Center

- The Army SSC provided government led capabilities for deployment and sustainment of Army Enterprise Resource Programs (ERP)
- Provided ERP solutions to war fighter and business units. Integrated ERP and subject matter experts over the life cycle. Optimized resources by technical and functional consolidation aligning ERP investments to an integrated approach. Provided integrated support, common processes, tools, resources and best practice implementations to the Army.
- Managed the government and contract capability to control the performance, quality, and direction of operations within the Army
- Managed procurement strategies when and where outsourced capabilities were required
- Reported program status to the Program Executive Office for Enterprise Information Systems (PEO EIS)

2007 – Jan 2016

Picatinny Arsenal, NJ

Joint Munitions & Lethality Life Cycle Management Command CIO / G6

- Managed the mission and business information technology systems in the LCMC portfolio
- Voting member and one of the original founders responsible for standing up the AMC/PEO Joint CIO Board; a vital execution arm for Army's Enterprise strategy
- Top level strategist for Situational Awareness in the commands strategic planning
- Worked closely with the CIO/G6 JMC, CIO PEO Ammo and CIO ARDEC to federate independent organizational IT initiatives and build toward a future integrated ammunition enterprise
- Served as Chair for the Army Joint AMC/ASA(ALT) CIO Council from 2012-2013

2005 – Jan 2016

Picatinny Arsenal, NJ

ARDEC Chief of Knowledge Management Office (KMO)

- Provided expertise to support life cycle management customers
- Focus on collaboration, learning, and implementation of corporate processes to conduct the armament business
- Member of the Office of Secretary of Defense ERP Enterprise Steering Group, working with the other DOD ERP programs in aggressively implementing ARDEC/Picatinny's ERP solution (eNOVA) solutions that capitalized on life cycle integration from concept through logistical support

- Initiated technical enterprise solutions keeping eNOVA on the latest releases within the SAP architecture to support transformation in the areas of operations, e-procurement, e-business, financials, and product engineering
- Sustained outsourcing partners both within and external to the government to include DoD/Army CIO staffs, the Army Network Command and Army Installation Management Agency
- Voting member of the RDECOM IT Governance Board as well as the TACOM Business Council
 - Achievement:
 - 2006 - Army Knowledge Management Program of the Year Award - eNOVA - Army G6 at Army LandWarNet

2003 - Jan 2016

Picatinny Arsenal, NJ

ARDEC, Chief Information Officer (CIO)

- Served as CIO for ARDEC
- Responsible for all center wide strategies and policies for conducting critical ARDEC functions across the life cycle
- Advised the Director and Deputy Director ARDEC on all matters related to IT as it effects the organizations operations
 - Achievement:
 - 2007 - Chartered a Joint Picatinny LSS Single DOIM Team to address Army Single DOIM implementation mandates and program schedules. Picatinny was the first installation to officially complete the Single DOIM implementation.
 - ARDEC became the first DoD organization to receive the National Baldrige Award for IT operations, architecture and infrastructure

1997-2004

Picatinny Arsenal, NJ

TACOM, ARDEC, Directorate of Business Management Office (DBMO)

Project Officer, Activity Base Costing and Earned Value Management

Realignment Team Member, Financial Restructuring and Implementation Team

Project Manager, eNOVA

- Project Officer for ABC/EVM, led a team of business analysts in designing processes, discovering support tools and building the business environment for conducting ABC/EVM methodologies
- Negotiated software and services; gaining stakeholder approvals and piloting both G&A and mission activities to analyze value added practices and benefits to programs
- As team member of FRIT, supported senior level management to realign ARDEC financial processes and policies in support of customers
 - Achievement:
 - A major outcome of the realignment and pressing Y2K issues was phase III which required automation strategies to operate in a more streamlined support structure
- As the Project Manager of the implementation of the eNOVA system, oversaw all phases of the acquisition cycle from a comprehensive market survey of Commercial off the Shelf (COTS) Enterprise Resource Program (ERP) systems to development of strategies and policies, acquisition, implementation, change management, deployment and sustainment
 - Achievement:
 - Picatinny was the first SAP Go-Live within DoD in 2001

1985 -1997

Picatinny Arsenal, NJ

TACOM, ARDEC, Program Management Support Office (PMSO)

Lead Software Developer, Program Integration and Scheduling Management System (PRISM)

- Led architect and software development supporting the life cycle management of engineering from tech base through demilitarization
